Real hardwood
made for real life
even when it's messy

THE FUTURE OF WOOD IS HERE.

There is no mistaking the warmth and natural beauty of hardwood flooring. But wood on its own is sensitive to moisture and can show signs of damage when exposed to spills, pets and mopping. Our NINJA™ technology reinforces the natural hardwood wear layer to protect against moisture, scratches and indentation better than traditional wood flooring, while offering the same beauty, authenticity and value-adding elements that make real hardwood the number one flooring choice for today's consumers. Raintree hybrid wood floors are ready to support active households, making it possible to live on genuine hardwood without worrying over performance.

Raintree is brought to you by the wood experts at American OEM and Hearthwood Floors. Our family has been passionate innovators in the wood flooring industry for over 70 years and consider Raintree to be the continuation of our legacy for future generations.

ENGINEERED FOR REAL LIFE.

WATERPROOF. Our unique construction with NINJA technology reinforces and waterproofs the wood wear layer, creating a real hardwood floor with unmatched natural beauty and enhanced performance.

DURABLE. Our proprietary NINJA Pet Guard™ finish seals the wood's pores making them impervious to moisture. Plus, our finish is infused with aluminum oxide to provide exceptional scratch and wear resistance. The NINJA H²O Core™ reinforces the wood for indentation resistance, making Raintree ideal for accident-prone homes with kids and pets.

VALUABLE. Raintree is classified as a real hardwood by the National Wood Flooring Association. Since natural hardwood is the only flooring that adds monetary value to a home, Raintree is smart investment.

CLEANABLE. For busy homeowners who want authentic hardwood with easy cleanup – routine maintenance includes vacuuming, sweeping and mopping with readily available cleaning products.

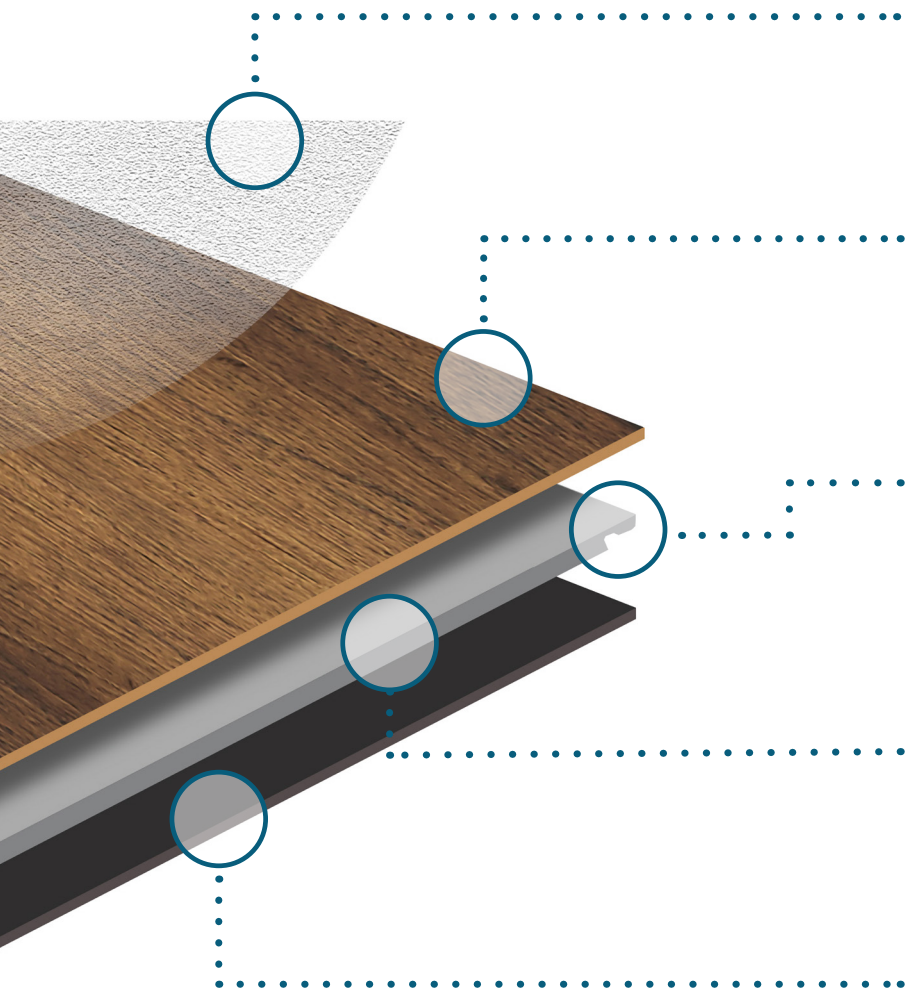

STRESS-FREE. From spills to heels, our NINJA H²O Core™ is 100% waterproof and indentation resistant. Raintree wood flooring can withstand high-traffic and heavy loads better than solid hardwood and luxury vinyl tile.

VERSATILE. The UniClic® Locking System paired with our NINJA Stealth™ pad ensure easy installation over existing flooring without adhesive or fasteners while improving sound quality and comfort underfoot.

REALLY DURABLE. REALLY WATERPROOF. REALLY WOOD.

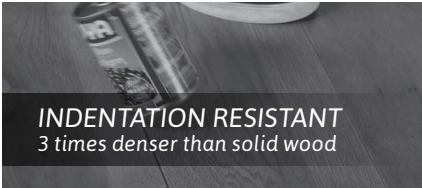

NINJA PET GUARD™
waterproof + scratch-resistant finish

HARDWOOD WEAR LAYER
1.2 mm real hardwood veneer
(environmentally harvested / Lacey Act compliant)

UNICLIC® TONGUE + GROOVE
fast + secure locking system for
glueless installation

NINJA H²O CORE™
100% waterproof rigid core

NINJA STEALTH™
1 mm IXPE acoustical foam backing
improves sound + comfort underfoot

EASY CLEANUP MEANS A WIN FOR THE HOME TEAM.

Whether it's a soccer match on fresh grass or a game of fetch in the mud, we know real life can be messy. Solid wood floors are sensitive to moisture which can lead to damage caused by mopping. But Raintree products are sealed against moisture with our NINJA Pet Guard™ finish and can be cleaned regularly with readily available products. No longer sensitive to spills and wet maintenance, Raintree wood floors let you live life to the fullest.

WHAT DOES WATERPROOF REALLY MEAN?

With Raintree, waterproof means waterproof. It's that simple.

Raintree wood floors have gone through extensive testing to ensure performance in the most extreme environments. We submerged a Raintree plank in a tank of water to evaluate the effects of moisture on the wood. At the end of the test, there were no signs of water damage to any part of the plank.

See the test at raintreefloors.com.

RESPONSIBLE. SUSTAINABLE. MEANINGFUL.

As part of a generational legacy, we understand our responsibility to the environment and are committed to managing our resources properly because our future, and yours, depends on it.

- GreenGuard Gold promotes healthy indoor air quality.
- Our wood is environmentally harvested and Lacey Act Compliant.
- Our hybrid wood flooring uses less hardwood than other wood constructions.

Visual representation of a Raintree plank submerged in a tank for testing. Results found no damage at the completion of the test. While repeated wet mopping will not affect Raintree flooring, care should be taken to avoid flooding the floor which can lead to unhealthy mold and mildew growth.

MORE THAN JUST GOOD LOOKS.

Inspired by iconic cities across America, our Raintree flooring truly is the most beautiful hardwood on the market. Layered stains and grain enhancement create a rich palette of looks to suit every design style. Wood designs that look high maintenance, but are incredibly practical and easy to maintain.

ASPEN ESTATES SERIES

Part rich man's playground, part ski bum's paradise – and surrounded by natural beauty – Aspen is truly a multifaceted Rocky Mountain enclave. So it's only fitting that our Aspen Estate Series combines a gorgeous fusion of authentic wood characteristics with refined style. The snow-dusted grain adds color dimension and an air of lightness across the palette, while the warm and cool tones create an inviting feeling, much like you get from gathering around stone fireplaces with loved ones after a long day on the slopes.

SPECIES	European White Oak
DIMENSIONS	7 1/2" Wide (nominal) x Random Lengths up to 75"
TEXTURE	Lightly Brushed
SHEEN	Matte

LAGUNA VIBES SERIES

There's something truly refreshing about this gem on the California Coastline. With endless coastal bluffs and hidden coves, Laguna Beach strikes an impressive balance between culture and natural beauty. Our Laguna Vibes Series flawlessly combines a neutral palette with a refined edge. The white oak graining is selected to have an ideal blend of natural character while preserving the modern, clean lines of the west coast. Texturing is a slight wire brush with a low gloss finish that asserts the authenticity of the real wood wear layer.

NASHVILLE SCENE SERIES

Nashville, the talented Southern city on Tennessee's Cumberland River, is home to Country Music. As a top destination, it balances a progressive music and arts scene with a legacy of southern hospitality. Our Nashville Scene Series is sliced from the hickory hardwoods native to the area. Much like Nashville, the character markings in hickory create a feeling that is simultaneously inviting and modern. A slightly brushed texture and matte finish compliment these heirloom sized planks to create an upscale, timeless look.

SPECIES	American Hickory
DIMENSIONS	7 1/2" Wide (nominal) x Random Lengths up to 75"
TEXTURE	Lightly Brushed
SHEEN	Matte
